

Gifftet Aeronautical Navigator®

## Gifftet® Global Navigation Solutions—Gifftet Aeronautical Navigator®

Are YOU looking for global aeronautical navigation solutions for indoors and outdoors?  
 Do YOU need professionally designed, supported global aeronautical navigation solutions?  
 Would YOU like to achieve 3-D centimeter-level position accuracy 99.9% of the time?  
 Do YOU want anti-jam civilian and military global aeronautical navigation solutions?

**If the answer is YES then Gifftet Aeronautical Navigator® is the right Solution for you!**

### OBJECTIVE

Gifftet® Global Navigation Solutions are aimed towards developing, marketing, and distributing Gifftet Navigator®, Gifftet Aeronautical Navigator®, and Gifftet Maritime Navigator® for Indoor Geolocation Systems, Geolocation of RF Signals, Geospatial, Geo-Information, Geo-Intelligence, Geo Referencing, GPS, GLONASS, Galileo, QZSS, and other Global Satellite and/or Pseudolite Navigation (or Positioning and/or Timing) Systems based on customer's needs.

### TO ORDER

To learn more please contact the person on this flyer or visit

### GIFTET AERONAUTICAL NAVIGATOR®

Gifftet Aeronautical Navigator® will have the ability to read Digital Aeronautical Chart® anywhere from the 29 Digital Aeronautical Chart geographic regions, contained between 90° North latitude and 90° South latitude, and support a variety of Geographic Information System applications and also process GPS/GNSS/Pseudolite data and enable safe and very accurate aeronautical navigation for the US Air Force, US Navy, Government agencies and government/US military sponsored contractors. It is also anticipated that Gifftet Aeronautical Navigator® will enable public sale of Digital Aeronautical Chart® in US airspace and worldwide.
